CERTICA

enCASE Feature Highlights

enCASE™ offers educators an easy way to manage users, create and administer CASE Benchmark Assessments™ and classroom assessments and review assessment results.

The tables below highlight key enCASE features.

CONFIGURE

Role-based Access & Control

- Distinct permissions for each user type
- Secure student accounts for test administration

Rostering

- Clever Integration
- Manually configure class rosters

Dashboard

- Easy navigation and access to application features
- Monitor upcoming and open testing windows

ASSESSMENT

School & District Item Banks

- Create items and passages for classroom use
- Reserve items for school or district use

Classroom Assessments

- Use CASE Item Bank™, Navigate Item Bank™ and locally created items to create assessments

Schedule and Administer

- Schedule testing window, assign students/classes
- Administer assessments online or by paper & pencil

REPORTS

Session Reports

- Review student and classroom summary results
- Overview reports display at-a-glance item performance

Assessment Analytics

- Interactive interpretation of assessment results
- Drill down & view student performance by standard, item and DOK

Scaled Reports (coming soon)

- View and download scaled CASE Benchmark reports and item analysis reports
