

Certify

Certify™ is Certica’s web-based data quality application that continually validates databases for business rule integrity, data quality requirements and potential compliance issues. Certify enables organizations to detect data problems quickly and allows data owners to take immediate action in resolving or correcting errors.

The Certify data quality solution validates data for 4.6 million students each day. Now, in addition to checking funding, discipline, attendance, demographic and special ed data, Certify identifies, and clearly displays, missing and overdue immunization data in your student information system (SIS). Health Services and other school staff can pinpoint problems quickly and save time with an easy, stress-free process – ensuring compliance with immunization laws.

How Can the Student Health Scorecard Help Your District?

With the Certify Student Health Scorecard, Health Services staff and others can be sent automated notifications to alert them when immunizations aren’t recorded, parent communications are late, and immunizations are overdue. The Student Health Scorecard is part of the Certify Rule Library which is applied directly to a district’s student data, and can help:

- Significantly reduce the time and effort spent reconciling immunization data.
- Ensure compliance with immunization laws by receiving alerts when data is missing or invalid.
- Focus health services staff on caring for students instead of data reconciliation.

Examples of Student Health Validations and Alerts in the Certify Rule Library

- Students must have their Polio Vaccine recorded.
- Students 4-6 years of age must have their DTP/DTaP Vaccine recorded.
- Students in Grade 7 or above must have their Tdap Vaccine recorded.
- Students 7-17 years of age must have their DTP/DTaP Vaccine recorded.
- Students must have their MMR Vaccine recorded.
- Students must have their Hep B Vaccine recorded.
- Students 4-12 years of age must have their Varicella Vaccine recorded.
- Students 13-17 years of age must have their Varicella Vaccine recorded.
- Students are required to have immunization records.
