START-UP SERVICE PACKAGE

START-UP SERVICE PACKAGE

New Clients

The AB Connect Professional Edition Start-Up Service is delivered as a managed service over twelve (12) weeks, and includes the following:

Provisioning and Basic Training:

- AB Connect provisioning including account setup and license configuration
- Initial training including environment setup and available AB Connect documentation and resources
- AB Alignment training with Certica Specialist for up to 2 users
- AB Connect Admin project and reporting training
- Standards management training

Technical Consultation:

Through a series of virtual sessions during the 12-week Start-Up phase, Certica Consultants will:

- Provide technical consultation – as needed – to assist with learning the AB Connect API, designing the integration of the client's systems with AB Connect and answering implementation questions. Session topics may include: AB Connect data model, use case discussions and Integration design discussions
- Review agreed use cases and map out API interactions to support the use cases. Certica will deliver sample API calls with an explanation of how they can be used to support the use cases
- Review the client's technical integration design and make recommendations to ensure the smoothest and most efficient integration

Best Practices:

- Through a series of virtual sessions during the 12-week Start-Up phase, Certica Consultants will share best practices, and where appropriate will propose additional services that may assist in successful AB Connect implementation.
